

ANOMALIES REPORT

Following anomalies were found in static input data files while designing the Find_Route application:

1. In stops.txt file, many stop Ids are missing
2. In stops.txt file, many stop Ids have same stop name.

For example :

1407,U01051,Zunk Market,28.6171,77.1108

356,U01068,Zunk Market,28.618117,77.112183

1197,U01069,Zunk Market,28.618433,77.11235

3. In stop_times.txt file, data for some trips are missing.

For example: For trip Id 1993

And Route Id 79 contains only 1993 trip so there was no route information for route Id 79.
